

esyconveyor

AUTOMATIC TRANSPORTATION

ESYCONVEYOR is a **modular transport system for hanging parts**, offering options such as **power & free or mono-rail**. Its uniqueness lies in its Kevlar rope-driven system, ensuring a clean, lubricant-free process.

Moreover, it easily adapts to your plant layout, including **horizontal and vertical curves as well as elevators**.

PART MANAGEMENT

Automatic.

MULTI-REFERENCE MANAGEMENT

Yes.

SPACE UTILIZATION

Multi-level possibilities with elevators and inflection points.

LOADING/UNLOADING

Manual, manipulator, and robots.
